MAPLETHORPE HEADS INDEPENDENT TICKET FOR ANTIOCH MAYOR

New Slate of Candidates
Will Oppose Bartlett
Ticket

A petition placing in nomination a new slate of candidates for village office opposing Mayor George B. Bartlett's Citizens ticket was filed Monday with Village Clerk R. L. Murrell.

The new ticket is designated as "Independent" and is headed by A. Maplethorpe, Antioch garage owner and past commander of the local American Legion post, as candidate for president of the village board. Named in the petition as candidates for trustees are Chas. Lux, present board member who did not become affiliated with Mayor Bartlett's Citizens group; Irving Elms, Elmer Rentner, George Wagner, Sr.; Walter Scott, and Frank Harden, who served as trustee some years ago.

The petition also carries the name of Russell Barnstable as candidate for village treasurer. There was no filing for the village clerkship on this ticket.

Running with Mayor Bartlett on the Citizens ticket for trustees are E. O. Hawkins, J. B. Drom, James Stearns, Robert Wilton, Nels Nelson, and Laurel Powles. R. L. Murrell, incumbent clerk, is candidate for reelection, and Clarence Shultz for village treasurer.

On the Citizens ticket are named the only candidates for library directors. They are Dr. L. John Zimmerman, candidate for reelection, and Mrs. Hugh Galbraith.

C. E. Hennings Monday filed his petition on the Peoples ticket for village trustee, and the last to file was John Pacini, also a candidate for trustee, who filed under the Progressive ticket Tuesday.

The final day for withdrawing petitions will be Saturday, March 16.

Antioch Ping-Pongers Show Flash in Victory Over Kenosha "Y's"

The Antioch ping-pong club avenged their only defeat of the season Thursday evening when they beat the flashy Kenosha "Y" team, 8-7.

The Antioch players smashed their way to an early lead and held their advantage all the way despite desperate attempts of Kenosha players to repeat their previous win.

The consistently good ping-pong of the locals was highlighted by Ray Sorenson's spectacular trouncing in two straight games of the Kenosha ace, Hershby Grimsbow, Wisconsin's third ranking player.

The victory gives Antioch a percentage of 800, with wins over Libertyville, Waukegan and Kenosha.

Some of the local players are considering entering the National Table Tennis Championships to be held in the Stevens hotel in Chicago April 5, 6 and 7.

GEYER RETAINS PURE MILK POST

Ouster Fails, Officials Com-
mended at Annual
Meeting

The most important developments at Tuesday's annual convention of the Pure Milk Association, at least from the viewpoint of Lake county producers, was the failure to oust Don N. Geyer as secretary-manager of the Association, and the defeat of Henry A. Pfister of Prairie View as director of the seventh district. Instead the Lake county group had selected W. J. Swayer, Gurnee, to represent them on the board of directors which was to have met yesterday to elect a new president.

Since the president is chosen from among the directors, Pfister can not be renominated as head of the association.

Defenda Base-Surplus Plan.
Insurgent groups within the marketing agency for 18,000 dairy farmers have been fighting Pfister and Don N. Geyer, secretary-manager, for some time over the sales policy of the organization. Pfister put up a vigorous defense of the "base and surplus" system of marketing, by which milk sold to Chicago dealers received one price for each forty-six quarts of fluid milk and a smaller price for what was termed surplus milk.

Insurgents favor what they term the "cost of production" plan, which places the same price on all milk produced by farmers, based on the fluctuating costs of operating a dairy farm.

Commend Officials.
While opponents of the administration planned to put through a resolution demanding the resignation of Geyer and A. M. Krah, public relations official, the majority had another resolution passed without a negative vote which expressed confidence in the present regime. Geyer is quoted in a Chicago paper as declaring the dissatisfied element comprised only 12 per cent of the total membership and came from three of the 15 districts.

Approximately 360 delegates representing 133 local country organizations of this great membership nominated and elected their Directors for the coming year passed upon the reports of the various departments, and adopted resolutions concerning the Association's policies.

\$25,000,000 Business.
During the past year the Pure Milk Association has marketed 1,606,044,297 pounds of milk valued at over \$25,000,000, according to Secretary Geyer in his annual report.

It was reported also that dealer's margins during this past year decreased; while the dairy farmer's marginal returns for his milk increased.

PUERILE DISEASES CAN BE CURBED, DR. F. J. JIRKA TELLS PTA

State Health Director Points
Out Evils of Childhood
Ailments

Communicable diseases among children is not a necessary evil, but in a large majority of cases can be greatly reduced in number or entirely eliminated, Dr. Frank J. Jirka, director of the Illinois State Department of Health, told parents and teachers of Antioch community at the March meeting of the local P. T. A. here Monday night.

Many parents regard the communicable diseases of childhood as unavoidable and the sooner they have the measles, mumps, whooping cough, and whatnot, the better; but this attitude on the part of parents is entirely erroneous, according to Dr. Jirka, who pointed out that many of these so-called harmless diseases many times leave weaknesses that pave the way for heart ailments and other serious afflictions in later life. Immunization against all diseases wherever possible was strongly urged by the director of the state health department.

Dr. Jirka explained in detail the problems of the department in promoting public health, and how the battle against communicable disease is becoming more complex each year, with the increased transportation facilities. The new proposed 10,000 mile super-highway which will extend into Mexico and South America will present a new problem—that of battling against the spread of tropical disease, according to Dr. Jirka.

Illinois ranks 18th among the states in amount of appropriations for carrying on the work of the state health department, Dr. Jirka said.

Principal R. E. Clabaugh spoke on the subject of school legislation and the urgent need that relief measures be passed by the present session of the legislature.

The executive committee has addressed letters to the 8th District representatives, to the district senator and to Governor Horner urging the passage of legislation for the relief of Illinois schools.

Musical numbers on the program were by Miss Lois Tschappat, soloist, of Grayslake, who was accompanied by Mrs. Mary Maplethorpe; and readings were given by Miss Emily Tschappat.

Mrs. Ernestine Robbins, president of the association, appointed the following members as a nominating committee to recommend officers for the coming year: Mrs. Lester Osmond, W. C. Petty and R. E. Clabaugh.

More than 7000 young men in Wisconsin have trained themselves in the short course explains V. E. Kyrin, director of the course.

The short course was reorganized this year to meet new needs of "economical production, efficient distribution, and worthwhile living," according to Chris L. Christensen, dean of the college of agriculture.

On Thursday night last week seven of the Lake Villa members journeyed to Waukegan to attend the fortieth birthday celebration of that camp and the Inner and Outer Sentinels took part in the ceremony.

The Firemen presented a minstrel show as the last of the series of the Band-box theatre plays and had two full houses who enjoyed it immensely. The series of seven plays has been a success in every way and even though weather conditions made it impossible to have large crowds at some of the plays, all feel that it was very successful and a sum of \$130 or more will be added to the church treasury. Each group worked hard and put on a good play, each one different, and the church board feels very grateful to all who helped either in the plays or in the serving for the social hour which followed each play.

Catherine Boehm, a Lake Villa high school student at Warren was the winner of first place in a state personality contest in which six high schools, Batavia, Grant, Huntley, Aurora, Warren and Waukegan participated. She was rated highest among sixteen contestants by three judges, Dr. Hamrin of Northwestern University, Mrs. Quarston and Mr. Johnson of Lake College of Commerce, Waukegan, on the basis of her personality evidenced in a personal interview and a standard social attitudes test, her scholarship, her extra curricular activities and her typing ability.

FILE PETITION TO INCLUDE TOWNSHIP IN LIBRARY DISTRICT

Approval of Voters Asked
at Annual Election
April 2

Proposal to extend the limits of the Antioch public library district to include all of Antioch township is asked in a petition filed late Tuesday with Town Clerk C. F. Richards, and for which the approval of voters will be sought at the annual town election April 2.

The present district from which revenue for library support is derived includes only the village of Antioch, but since the library is available to all in the surrounding community the need for more volumes and added facilities has been indicated by the board of directors. This of course, will require additional funds. The limit of tax levy for library purposes was 9 mills when the local district was created several years ago, but in 1933 the general assembly increased the limit to 12 mills.

In the event the proposal carries at the April election, the present members of the board probably will resign and a new membership will be elected from the entire district. Six members comprise the board of directors and the term of office is three years. A third of the membership is elected every second year.

INK YOU!

Two travelers arrived at the hotel and were shown a rather dingy room. "What," said one, "does this pigsty cost?" Promptly the proprietress replied: "For one pig, thirty shillings; for two pigs, fifty shillings."

RIGHT!

"What's that I smell?" inquired the lady from the city as she sniffed the country air. "That's fertilizer," answered the farmer. "For the land's sake!" exclaimed the lady. "Yes, ma'am," assented the farmer.

No, Two Were Won Over.

Judge: What possible excuse did you have for acquitting that murderer?

Foreman of Jury: Insanity.

Judge: What, all twelve of you?

"What's the matter with Joe lately? His singing has been horrible."

"He's hopelessly in love."

"Tell him to get married."

"Impossible. It takes two to make a bargain."

"I understand you turned down the presidency for the corporation."

"Yes, there was no chance for advancement."

Texas College Students Coin Some New Words

Fort Worth, Texas.—First year students at Texas Christian university here have added some new slants on word meanings.

One student, impressed with the school song at a football game, wrote: "And we all stood and sang the Armada."

A weary freshman penned this one: "I was so tired I went to my room and there sank in the arms of metamorphosis."

Other boners were:

"An aluminate is an ex-student."

"A hobby is a boy friend."

"Girls are known as fair sexts."

"Homily means not exactly beautiful."

"A gargyle is a throat rinse."

Take Uncertainty Out of Weather Forecasting

Cambridge, Mass.—Uncertainty will be taken out of weather forecasting in the future through the use of radio-sounding balloons and other devices, Prof. Charles F. Brooks, director of the Blue Hill Meteorological observatory, predicted. He said:

"By the end of the next fifty years I expect that radio sounding balloons will be sent up several times daily from a hundred stations in the United States and that our knowledge of the atmosphere will be so greatly increased that forecasts will no longer be so uncertain as 'unsettled, probably rain or snow.'"

Singing Mice

There are a few species of mice (including the well-known house variety) in which some of the individual rodents are capable of making sounds similar to the songs of certain birds (chirping, twittering, etc.). The "song" resembles the faint warbling of a canary.

Ghazi, Title of Honor

Ghazi (pronounced gab-zee) is merely a title of honor. It is an Arabian word which, when translated literally, means "warrior." In Turkey it has come to mean "victorious warrior." Among the Moslems, however, it was used to designate one who had slain a great number of infidels.—Pathfinder Magazine.

Location of Albania

Albania, with a population of 832,000, is on the west coast of the Balkan peninsula, bordering upon Greece, Yugoslavia and the Ionian sea.

Have You Read "Anthony Adverse"?

Few books in recent years have been as loudly acclaimed as "Anthony Adverse." Hervey Allen has far surpassed all his previous works in this romantic novel of the Napoleonic era. If he has occasionally stretched the long arm of coincidence beyond the point of credibility, the wealth of incident and the meticulous attention to detail compensate fully for the strain. The breath of genius endows his characters with life and color, and the career of Anthony Adverse seems a reality.

Throughout the pages of this book Mr. Allen has woven the strange events of those years of turmoil both in Europe and the New World. We meet Napoleon, the great bankers, Barling, Hope, Ouyard and Rothschild, the Prince of Peace and Tallyrand. Slave trading casts its dark shadow, and the conspiracy of Aaron Burr adds a scarlet thread. Mr. Allen exchanges the telescope of the years for a microscope and we see the lives, loves and hates through the eyes of Anthony Adverse.

The Library is open from 3:00 p. m. to 5:30 p. m., on Monday, Wednesday and Friday.

NORMAL LIFE SPAN 140, SAYS VORONOFF

Gland Specialist Outlines a Plan for Longevity.

Calcutta.—"The natural span of life is 140 years, and I have every hope that one day we may prolong it to this period," declared Dr. Serge Voronoff, the famous exponent of rejuvenation here.

"Everybody who dies between the ages of seventy and ninety is a person who is 'killed,'" Doctor Voronoff added. "The problem is to find out how not to be so 'killed.'"

"Between sixty and seventy is a critical period. Death is awaiting us. Those who wish to survive in the unequal struggle have but one means of gaining their end—to replace their worn-out glands with young and active glands, which will impart a new impulse to the cells of all our organs, causing them to create new young cells and thus rejuvenate the whole organism."

His Methods Recognized.

Doctor Voronoff declared that the most eminent experts now recognized the efficacy of his methods and thousands of operations were being performed in Europe, and also in Japan. The only difficulty was procuring an adequate supply of animals for the purpose. The ordinary monkey was not suitable, the specimens of the genera required being the gorilla, orang-outang, chimpanzee or gibbon.

Together with his beautiful young wife, Doctor Voronoff intends to go to Java, where he will spend some time conducting experiments on the blood of the orang-outang. Afterwards he will go to Indo-China to conduct similar research on the gibbon.

Different Blood Types.

Recalling his early work, the doctor said that at first he presumed that the blood of monkeys was of one type instead of the four types present in the human being. Some of the early experiments were not very satisfactory, but after long research he found that the monkey had four types of blood also, corresponding to those types found in humans.

He therefore altered his methods to include tests of the blood both of the patient and of the animal to make sure that the types of blood corresponded. Then he grafted onto the human being the thyroid, pituitary and sexual glands of the monkey.

The results, he claims, are "highly successful." The change observed in the aging human being could only be described as "something marvelous."

Utopian Colony "Happy Family;" Have No Money

Belle River, Prince Edward Island.—Prince Edward Island's famous "Communist-Utopia" colony is steadily nearing its goal—complete self-sufficiency.

The colony was founded by Hector Compton, administrator, and his brother John, spiritual leader, in 1900. It is "self-governing," has no banks and no money. The settlers live as "one big happy family." They operate community farms, manufacture their own lumber and have their own electric plant.

They "pool" all their resources, and when anyone needs anything he goes to the community store and gets it for nothing. He can come as often as he likes and no questions are asked.

When a young couple decides to get married, the whole colony gets together and builds a house and furnishes it completely for them.

The colonists still have to do a certain amount of trading with the outside world, but eventually hope to become totally self-sustaining.

Hector Compton declares the colony is the "antithesis of Communism."

"Whereas Communism in Red Russia is built on hatred," he says, "we have built our system on love. We live in sharing material riches. As head of the colony I receive no more for my labor than does the youngest farm boy."

Conk-black jet was the craze of the Victorian age, says "Titi's Magazine." It was used in all kinds of jewelry, chains, pendants, brooches, and buttons, and the working of jet is one of the oldest industries in the country. In the villages around Whitby, in Yorkshire, rough brown lumps of jet are still collected. It is found in seams and sometimes pieces are picked up on the seashore, worked smooth by the pounding waves.

775 U. S. Planes Are Now Equipped With Radios

Washington.—A recent survey by the bureau of air commerce shows that there are 775 radio-equipped airplanes in commercial and private operation throughout the United States, whereof 345 are owned by the scheduled airlines, 240 installed in private planes, 135 in ships used by individual firms for business purposes and 40 in craft employed for air taxi and charter flights. Government-owned aircraft, such as that operated by the army, navy and bureau of air commerce itself, many of which carry radio equipment, was not included in the survey.

A considerable increase in the employment of airplane radio among private owners during the coming year is anticipated as a result of developments that have been under way for some time with the "homing" radio compass. This device enables an airplane pilot to tune in either on Department of Commerce airways radio stations and course beacons or on regular radio broadcasting stations and fly directly toward them from any point of the compass.

MAPLETHORPE HEADS INDEPENDENT TICKET FOR ANTIOCH MAYOR

New Slate of Candidates
Will Oppose Bartlett
Ticket

A petition placing in nomination a new slate of candidates for village office opposing Mayor George B. Bartlett's Citizens ticket was filed Monday with Village Clerk R. L. Murre. The new ticket is designated as "Independent," and is headed by A. Maplethorpe, Antioch garage owner and past commander of the local American Legion post, as candidate for president of the village board. Named in the petition as candidates for trustees are Chas. Lux, present board member who did not become affiliated with Mayor Bartlett's Citizens group; Irving Elms, Elmer Rentner, George Wagner, Sr.; Walter Scott, and Frank Harden, who served as trustee some years ago. The petition also carries the name of Russell Barnstable as candidate for village treasurer. There was no filing for the village clerkship on this ticket.

Running with Mayor Bartlett on the Citizens ticket for trustees are E. O. Hawkins, J. B. Drom, James Stearns, Robert Wilton, Nels Nelson, and Laurel Powles. R. L. Murre, incumbent clerk, is candidate for re-election, and Clarence Shultis for village treasurer.

On the Citizens ticket are named the only candidates for library directors. They are Dr. L. John Zimmerman, candidate for re-election, and Mrs. Hugh Galbraith.

C. E. Hennings Monday filed his petition on the Peoples ticket for village trustee, and the last to file was John Pacini, also a candidate for trustee, who filed under the Progressive ticket Tuesday.

The final day for withdrawing petitions will be Saturday, March 16.

Antioch Ping-Pongers Show Flash in Victory Over Kenosha "Y's"

The Antioch ping-pong club avenged their only defeat of the season Thursday evening when they beat the flashy Kenosha "Y" team, 8-7. The Antioch players smashed their way to an early lead and held their advantage all the way despite desperate attempts of Kenosha players to repeat their previous win.

The consistently good ping-pong of the locals was highlighted by Ray Sorenson's spectacular trouncing in two straight games of the Kenosha ace, Hersey Grimsbow, Wisconsin's third ranking player.

The victory gives Antioch a percentage of 800, with wins over Libertyville, Waukegan and Kenosha.

Some of the local players are considering entering the National Table Tennis Championships tourney to be held in the Stevens hotel in Chicago April 5, 6 and 7.

GEYER RETAINS PURE MILK POST

Ouster Fails, Officials Com-
mended at Annual
Meeting

The most important developments at Tuesday's annual convention of the Pure Milk Association, at least from the viewpoint of Lake county producers, was the failure to oust Don N. Geyer as secretary-manager of the Association, and the defeat of Henry A. Pfister of Prairie View as director of the seventh district. Instead the Lake county group had selected W. J. Swayer, Gurnee, to represent them on the board of directors which was to have met yesterday to elect a new president.

Since the president is chosen from among the directors, Pfister can not be renamed as head of the association.

Defends Base-Surplus Plan.
Insurgent groups within the marketing agency for 13,000 dairy farmers have been fighting Pfister and Don N. Geyer, secretary-manager, for some time over the sales policy of the organization. Pfister put up a vigorous defense of the "base and surplus" system of marketing, by which milk sold to Chicago dealers received one price for each forty-six quarts of fluid milk and a smaller price for what was termed surplus milk.

Insurgents favor what they term the "cost of production" plan, which places the same price on all milk produced by farmers, based on the fluctuating costs of operating a dairy farm.

Commend Officials.
While opponents of the administration planned to put through a resolution demanding the resignation of Geyer and A. M. Krah, public relations official, the majority had another resolution passed without a negative vote which expressed confidence in the present regime. Geyer is quoted in a Chicago paper as declaring the dissatisfied element comprised only 12 per cent of the total membership and came from three of the 15 districts.

Approximately 360 delegates representing 132 local country organizations of this great membership nominated and elected their Directors for the coming year passed upon the reports of the various departments, and adopted resolutions concerning the Association's policies.

\$25,000,000 Business.
During the past year the Pure Milk Association has marketed 1,506,044,297 pounds of milk valued at over \$25,000,000, according to Secretary Geyer in his annual report. It was reported also that dealer's margins during this past year decreased; while the dairy farmer's marginal returns for his milk increased.

PUERILE DISEASES CAN BE CURBED, DR. F. J. JIRKA TELLS PTA

State Health Director Points
Out Evils of Childhood
Ailments

Communicable diseases among children is not a necessary evil, but in a large majority of cases can be greatly reduced in number or entirely eliminated, Dr. Frank J. Jirka, director of the Illinois State Department of Health, told parents and teachers of Antioch community at the March meeting of the local P. T. A. here Monday night.

Many parents regard the communicable diseases of childhood as unavoidable and the sooner they have the measles, mumps, whooping cough, and whatnot, the better; but this attitude on the part of parents is entirely erroneous, according to Dr. Jirka, who pointed out that many of these so-called harmless diseases many times leave weaknesses that pave the way for heart ailments and other serious afflictions in later life. Immunization against all diseases wherever possible was strongly urged by the director of the state health department.

Dr. Jirka explained in detail the problems of the department in promoting public health, and how the battle against communicable disease is becoming more complex each year with the increased transportation facilities. The new proposed 10,000 mile super-highway which will extend into Mexico and South America will present a new problem—that of battling against the spread of tropical disease, according to Dr. Jirka.

Illinois ranks 18th among the states in amount of appropriations for carrying on the work of the state health department, Dr. Jirka said.

Principal R. E. Clabaugh spoke on the subject of school legislation and the urgent need that relief measures be passed by the present session of the legislature.

The executive committee has addressed letters to the 8th District representatives, to the district senator and to Governor Horner urging the passage of legislation for the relief of Illinois schools.

Musical numbers on the program were by Miss Lois Tschappat, soloist, of Grayslake, who was accompanied by Mrs. Mary Maplethorpe; and readings were given by Miss Emily Tschappat.

Mrs. Ernestine Robbins, president of the association, appointed the following members as a nominating committee to recommend officers for the coming year: Mrs. Lester Osmond, W. C. Petty and R. E. Clabaugh.

Local Student Completes State Farming Course

One farm boy from Antioch graduates from the short course in the Wisconsin College of Agriculture at Madison on Saturday, March 16, according to a bulletin received from the University today.

The graduate is Clarence A. Ruyard of Trevor community.

The graduating class this year, the largest since 1916, represents 47 different counties. Many of the young men completing the work are returning to their home farms. Others will be employed in other communities, and some will be engaged in commercial lines.

More than 7000 young men in Wisconsin have trained themselves in the short course explains V. E. Kivlin, director of the course.

The short course was reorganized this year to meet new needs of "economical production, efficient distribution, and worthwhile living," according to Chris L. Christensen, dean of the college of agriculture.

The Lenten World Service boxes have been handed out, but in case you have not received one, please ask Mr. DeSels or any of the church board who will be glad to supply you. These boxes are for small change and the contents will be turned in at Easter time and will apply on missionary work.

The Woman's Club met at Bradley house at Allendale last week Tuesday afternoon. Miss Gannet presided in the absence of Mrs. Maier, and presented an interesting program on conditions in Russia, England, Germany and America during the past year.

The Royal Neighbor Camp of Lake Villa enjoyed the hospitality of Grayslake Camp at Past Oracles' night Tuesday instead of holding their own regular meeting. On Thursday night last week seven of the Lake Villa members journeyed to Waukegan to attend the fortieth birthday celebration of that camp and the Inner and Outer Sentinels took part in the ceremony.

The Firemen presented a minstrel show as the last of the series of the Band-box theatre plays and had two full houses who enjoyed it immensely. The series of seven plays has been a success in every way and even though weather conditions made it impossible to have large crowds at some of the plays, all feel that it was very successful and a sum of \$130 or more will be added to the church treasury. Each group worked hard and put on a good play, each one different, and the church board feels very grateful to all who helped either in the plays or in the serving for the social hour which followed each play.

Catherine Boehm, a Lake Villa high school student at Warren was the winner of first place in a state personality contest in which six high schools, Batavia, Grant, Huntley, Aurora, Warren and Waukegan participated. She was rated highest among sixteen contestants by three judges, Dr. Hamrin of Northwestern University, Mrs. Quarnston and Mr. Johnson of Lake College of Commerce, Waukegan, on the basis of her personality evidenced in a personal interview and a standard social attitudes test, her scholarship, her extra-curricular activities and her typing ability.

FILE PETITION TO INCLUDE TOWNSHIP IN LIBRARY DISTRICT

Approval of Voters Asked
at Annual Election
April 2

Proposal to extend the limits of the Antioch public library district to include all of Antioch township is asked in a petition filed late Tuesday with Town Clerk C. F. Richards, and for which the approval of voters will be sought at the annual town election April 2.

The present district from which revenue for library support is derived includes only the village of Antioch, but since the library is available to all in the surrounding community the need for more volumes and added facilities has been indicated by the board of directors. This, of course, will require additional funds. The limit of tax levy for library purposes was 9 mills when the local district was created several years ago, but in 1933 the general assembly increased the limit to 12 mills.

In the event the proposal carries at the April election, the present members of the board probably will resign and a new membership will be elected from the entire district. Six members comprise the board of directors and the term of office is three years. A third of the membership is elected every second year.

NO ALIBI FOR CONFISCATORY TAXES

The best way to measure the burden of taxation is to relate it to the national income. The amount of the money we have out of which to do the paying.

In 1923, the national income was over \$69,000,000,000 and taxes took \$7,200,000,000—10 per cent. During ensuing years, that percentage was relatively constant, and in our peak income year, 1929, cost of government absorbed but 11.8 per cent of our income. In 1930, our income dropped to \$70,000,000,000, from the high of \$83,000,000,000 established the year before, while taxes rose and took 14.6 per cent of all the money we earned. In 1932, taxes took 20.7 per cent. Conclusive figures for the years since are not available—but best opinion holds that government costs amount to more than 25 per cent of the national income.

What this means is that government has utterly failed in adjusting its finances to fit current economic conditions. Every business and every individual has had to do that during depression—they have pruned budgets, cut out luxuries, and made income and outgo balance. Government has continued to spend more and more—and the results are found in industrial stagnation, increasing unemployment, delayed recovery.

It is true that government must make certain extraordinary expenditures in bad times, in order to aid the unfortunate. But a small proportion of total governmental cost is used for such purposes—and "relief" is no alibi for government extravagance and experiments. Necessary governmental functions must be maintained, but the frills must be eliminated.

TWO KINDS OF COOPERATION

The farmer has learned that there are two kinds of cooperative effort.

One kind is obtained through government fiat—through a process of regimentation, whereby the farmer's actions are dictated by a bureau in Washington. The other kind is obtained through the work of the

farmer himself—when he and his fellows join and support a farmer-controlled cooperative organization.

The first kind of cooperation may be necessary in a temporary national emergency, but if it is continued indefinitely the American farmer will undergo drastic and unhappy change. Once a free man, he will become a serf. Once an independent entity, thinking and working to advance his own interests, he will be at the mercy of politicians. Money made at the expense of freedom and independence could avail him little.

The second kind of cooperation does not destroy independence—it builds it. It makes for individualism and development of character. Farmers who band together in cooperative organizations to fight their battles and thrash out issues affecting them, are hardly likely to become peasants, under the thumb of bureaucracy. Which kind of cooperation does the average American farmer want?

THE OPPORTUNITIES EXIST

The Saturday Evening Post had a fine editorial commenting on the time-worn argument of politicians that there is no more "free land" to be had from the government; hence, vast sums of money must be appropriated to provide "social services" for the people.

The Post pointed out that the "free land" story is misleading—that a man had to have courage, perseverance and great initiative to cross the deserts, mountains and forests for thousands of miles to gain the "free land." He generally paid a tremendous price in suffering, privation, endless labor and often death in order to acquire the "free land."

"Social service" schemes at public expense, do not develop the type of citizens who crossed the plains and took up land to build a new empire in the West.

Greater opportunities are here today, but the individual is not encouraged to find them by paternalistic government policies which crush initiative and private enterprise.

POLITICAL CANDY

We are developing a political philosophy that not only invites the people, but urges them to get their noses in the public trough on the theory that someone owes them a living.

It has become good politics to give the people a nice, red, five-cent stick of political candy for ten cents in taxes. So long as the people can be kept ignorant of the fact that they are really paying for the candy plus about 100 per cent additional for political overhead to handle it, just so long will they clap their hands and cry for more.

But a lot of good folks are getting a stomach ache from too much political candy. They are going to ask questions when they find what their candy is costing.

"Tree" is a very old word. In vogue in the days when people ate their meals off platters carved by the menfolk from the trunks of trees growing near their wooden huts. The materials cost nothing, and only their own work was needed to fashion the timber into useful domestic articles, so they made everything they could of "tree."

writes an owner

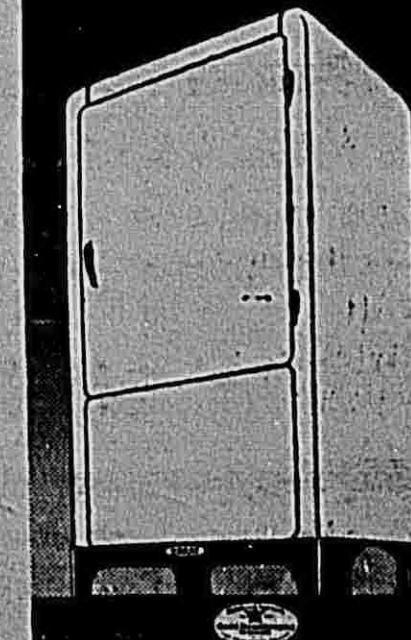

■ If there is one most important
part of a refrigerator, it is the
cold-making mechanism. And
if there is one best part of a
Norge it is the famous Rollator
cold-making mechanism. But...

You don't sacrifice anything
to get this superior mechanism
in the Norge. Every part of the
Norge is designed and built to
give you the most in refrigera-
tion—the most in beauty, con-
veniences, health benefits, tastier
foods, economy.

Especially economy. Savings
up to \$11 a month in food and
refrigeration costs are common.
Many Norge owners report even
greater savings.

■ You want the most for
your money when you buy
a new refrigerator. Then
look to the mechanism. Get

MIXING IS SECRET OF DELICIOUS CAKES WITH LARD

Can you make a cake with lard? "Yes, most successfully," says Inez S. Willson, home economist, "but the secret's in the mixing."

Since there is absolutely no taste of lard in the finished cake, home-makers are taking advantage of the low cost of lard as compared with other fats for shortening and are using it for cakes. Excellent results have been obtained by the method of combining ingredients worked out in the laboratories of the Institute of American Meat Packers. Here's the way:

Method of Mixing Lard Cakes

1. Sift flour, baking powder and salt together, (since lard contains no salt, the flavor of the cake is improved by the addition of salt, in the proportion of 1/4 teaspoon for each cup of flour.)
2. Cream well 3/4 of the sugar with the lard, and 2 tablespoons of the liquid.
3. Separate egg whites and yolks. Add yolks to milk.
4. Add flour mixture and milk alternately to the creamed fat and sugar. (Flour should be added first to prevent separation of creamed mixture.)
5. Beat egg whites until stiff but not dry. Add sugar to beaten egg whites and beat only until sugar disappears.
6. Fold egg whites into cake mixture.

Breakfast Must Appeal to Child's Appetite

Furnishing breakfasts which appeal to children and meet their food needs is often quite a problem. There must be at least one hot dish in the breakfast. Sufficient nourishment is required to care for the hungry child before lunch time.

These unusual school breakfast menus are very practical:

- Fresh or Stewed Fruit with Cereal
Poached Egg Buttered Toast
Bacon Preserves Milk
- Breakfast Betty
Cream Sugar
French Toast with Apple Butter Milk
- Sliced Bananas Cream
Hot Rice Flake Muffins
Spanish Omelet
Currant Jelly Milk

7. Flavor and bake either in layer or loaf at 350 degrees F.

Any good cake recipe may be used, the only change necessary being the addition of salt. The same amount of lard as other fat is used.

A favorite recipe using lard is the one suggested below:

- Plain White Cake
- 1/3 cup lard
2 cups flour
2 1/2 teaspoons baking powder
1/2 teaspoon salt
2 eggs
1 cup sugar
3/4 cup milk
1 teaspoon vanilla
1/2 teaspoon almond flavoring.
- Combine as described above. This makes a small two-layer cake.

My Favorite Recipes

Frances Lee Barton says:

MOST light desserts, of stewed or canned fruits or gelatin, really need a morsel of cake to make them quite complete and satisfying. For this purpose I have found these delicate, delicious Sponge Drops fill the bill to perfection—try them and I am sure you will agree with me.

Sponge Drops

1/3 cup sifted cake flour; dash of salt; 1 egg and 2 egg yolks; 2 egg whites; 1/3 cup powdered sugar; 1/4 teaspoon vanilla; 1 tablespoon melted butter.

Sift flour once, measure, add salt, and sift together four times. Combine egg and egg yolks and beat until thick and lemon-colored. Beat egg whites stiff, add sugar gradually, and continue beating until mixture stands in peaks. Fold in egg yolk mixture and vanilla. Add flour, folding it in carefully; then fold in butter. Drop from teaspoon on ungreased paper. Bake in moderate oven (375° F.) 12 minutes. Makes 2 1/2 dozen sponge drops.
